2017 Collection

Every year Savinelli releases a limited edition Collection series, featuring a unique shape presented in a range of finishes. 2017's is a straight Poker with a modern and elegant style, only rendered in healthy Italian proportions. Each pipe is accented with a briar band and a black acrylic mouthpiece, and is available in a selection of finishes: a light natural or dark brown smooth polish, as well as two sandblasted varieties (one with a smooth top, one with a sandblasted top). **MSRP \$260 - \$650**

SANDBLASTED • SANDBLASTED WITH SMOOTH TOP • SMOOTH BROWN • NATURAL

As a tribute to Italy's rich artistic heritage, the Impero series pays homage to the old Roman Empire, presenting eight of Savinelli's classic shapes in a regal style. Finished in either a natural, smooth polish or a dark brown rustication, each pipe is adorned by a band of emerald green, marbled acrylic, as well as twin nickel rings for a bit of flash. **MSRP \$130 - \$165**

Menta

Savinelli continues their culinary-inspired series with the Menta or "mint" line. Featuring a smooth, dark ruby finish and a mouthpiece of cream and green acrylic, each pipe comes with a mint tea strainer-like windscreen/cap, making smoking outdoors a breeze. Available in a range of six classic designs. **MSRP \$175**

SHAPES & SIZES: 122, 128, 321, 412 KS, 614, 636

Pannocchia

Inspired by the classic American corn cob pipe, Savinelli's Pannocchia series presents a range of classic shapes in a natural, virgin rustication, accented by a trim green acrylic band and a swirled, yellow acrylic stem — calling to mind, in both texture and palette, the ever present cob. **MSRP \$200**

SHAPES & SIZES: 111 KS, 122, 127, 310 KS, 311 KS, 601, 606 KS, 628, 701

Autograph

As the Italian marque's flagship handmade line, Savinelli Autographs are carefully crafted from **Extra Extra grade** plateau briar, and all accents and mouthpieces for this series are cut from rod in the factory. Much like traditional Danish Freehands, all Autographs are hand-crafted from start to finish using the "shape first, drill second" method. As a result, no two Autographs are exactly the same, though they all exhibit beautiful grain and gorgeous linework.

Following a rigorous quality control process, many Autograph blocks are started and later discarded due to pits or other natural defects appearing in the briar, meaning every finished Autograph pipe is a cut above the rest. Matching those meticulous standards, Autographs are graded according to strict shape, grain, and quality parameters. In ascending order, **the grades are as follows: "3", "4", "5", "6", "8", with the higher tiered "0", "00", and the ultimate "000"** following suit.

While Savinelli's standard lines offer a variety of classic shapes your customers can choose from for a reliable smoker, the Autograph series serves as a spectacular introduction into the world of handmade pipes. With such a range of unique shapes and finishes, having a number of these Freehand designs on your shelves is always recommended. **MSRP \$280 - \$2450**

FREEHAND PANELED • FREEHAND SANDBLASTED • SANDBLASTED • SMOOTH • PANELED • MIGNON • FREESTYLE

HIGH GRADES

Artisan

Hand-carved one at a time by Savinelli's in-house artisans, from briar specially chosen for its grain quality, no two pipes of the Artisan series are truly the same. These each feature a handsome, smooth finish and medium-dark contrast stain that really allows the briar's grain to pop, and each comes included in its own presentation box. **MSRP \$330**

VARIOUS HANDMADE SHAPES

Giubileo d'Oro

The Giubileo d'Oro is the Savinelli pipe par excellence, presented in their most classical shapes, fashioned from the tiny percentage of briar which passes the inspection required to make this grade, and finished in either a dark, fine-textured sandblast, a smooth, lovely honey-blond contrast, or a duskier, handsomely reserved walnut contrast. As you might expect from a series consisting only of the top 0.1% of a marque's production, the sandblast-finished pieces offer choice ring grain, while the smooth finished selections can be counted on for providing plenty of beautiful birdseye and flame. All three versions come fitted with classic jet-black stems, accented only with the series' signature trio of brass dots, and every Giubileo d'Oro is accompanied by its own tamper featuring turned brass and briar construction, the latter element finished to match the pipe itself. **MSRP \$505 - \$860**

SANBLASTED • HONEY • WALNUT

Punto Oro Classic

Of all the series produced by Savinelli, the shapes within the legendary Savinelli Punto Oro (Gold Dot) line are the most traditional, each boasting a time honored form which could serve as a template for their turn-of-the-century brethren.

The Punto Oro is created from the finest Mediterranean briar, aged for three years, and boasts ninety separate crafting and inspection processes performed by some of Savinelli's most skilled artisans. Featuring a smooth, "miles deep" finish and tastefully accented with a brass dot, the Punto Oro is available in both the Natural and Burgundy finish and comes with a lucite stem. In addition to acquiring a smoking instrument which comes standard with a lucite bit, your Punto Oro customer receives the added confidence that his new pipe is backed by a 24 month guarantee against any faults in materials or workmanship.

MSRP \$225 - \$450

BORDEAUX • NATURAL • GOLD

Roley

The Savinelli Roley is, quite simply, the classic vest-pocket pipe. Though it may seem exotic to newcomers, this design has been around for ages, and is a textbook example of form-following-function. Indeed, the archetypal image most commonly associated with this distinctive, self-contained little smoker is that of an Eisenhower-era American engineer/patriarch keeping one in his button-down shirt’s pocket. **MSRP \$68 - \$75**

RUSTICATED or BROWN

Petite

The idea behind the Petite series is, as the name suggests, small, lightweight pipes — well-established, classic Savinelli shapes, altered to the kind of fine proportions more typically associated with pipes of the old French style, or smaller English pocket pipes. Though gracile by design, these briars feature stout walls and are available in a range of finishes: the medium-walnut and lighter, natural contrast stains of the two smooth-polished versions, as well as the jet-black, rusticated version. In all three, brass-and-nickel rings at the base of the stem make for a simple, clean accent. **MSRP \$125 - \$170**

COLORFUL

Alligator

The Alligator series dresses some of Savinelli's most popular designs in a mixed finish of deep rusticated grooves and smooth-polished panels, resulting in a texture and aesthetic much like that of an alligator's hide. It's also one of Savinelli's most colorful presentations, with deep blues, warm reds, emerald greens, and more understated browns all in the mix. **MSRP \$130 - \$135**

Arcobaleno

Italian for "Rainbow", the Arcobaleno series was created in order to offer rusticated pipes of sophisticated shapes, as well as colorful finishes, and to do so at an affordable price. Accented with a smart, silver colored band, the Arcobaleno is available in a variety of classic Savinelli shapes, as well as both the standard and "KS" size designations. The Arcobaleno is available in both smooth and rusticated finishes, and the stains include a jaunty rusticated green, an ultra-deep phthalo blue, as well as seal brown. **MSRP \$103 - \$125**

Nappa Roll-up Tobacco Pouch

The roll-up tobacco pouch is a simple concept that has endured for generations, and it's done so because, quite simply, it works, it's convenient, and it's easily manufactured at an affordable price. And that's just what Savinelli offers in their own: a functional, convenient, and affordable way to stow a day's worth of one's favorite blend.

COLORS: CLASSIC BLACK, CHOCOLATE, OR RED

Churchwarden Two Pipe Case

This darkly stylish, genuine leather carrying case allows your customers to stow not one, but two full-length Churchwardens — all without the burden of breaking them down. Inside, you'll find a much lighter, richer auburn interior, fitted with extra-long pipe loops, a pipe cleaner sleeve, a removable tobacco pouch, and a zippered accessory pocket.

COLOR: BROWN

4 Pipe Travel Bag

A very useful, handy pipe accessory to have around, this four-pipe Travel Bag has the Savinelli insignia on the right and a reflective pipe emblem on the left. The roll-up design is the ultimate in convenience, really meant for traveling smokers who have more than a few favorite pipes to rotate through, knowing full well the benefits of individual pipes for individual blends. Inside, there are four generously sized pipe loops, one tamper loop, a Velcro tobacco pouch strap, and zippered accessory pocket.

COLORS: CLASSIC BLACK, CHOCOLATE, OR GREEN

Velvet Long Pipe Pouch

Fortunately, as a maker of several popular Churchwarden lines, Savinelli appreciates that there are still plenty of smokers out there who favor these longer-stemmed briars. So it is that they offer not only Churchwarden-length pipe cases, but also soft Churchwarden-length roll-up pipe pouches as well.

COLORS: MIDNIGHT BLUE, LIGHT CHOCOLATE, HUNTER GREEN, OR SILVER GREY

Leather Pipe Sleeve

Whether packing the pipe into a suitcase for a flight across the country or the glove box for a short trip to the grocery store, Savinelli's Pipe Sleeve offers a stylish and practical way of preventing damage to a well-finished briar. The application is simple enough, slide it down the stem and shank, zip it up, and your pipe is ready to go anywhere, minus the dents, scratches, and dings.

COLORS: CLASSIC BLACK, CHOCOLATE, OR RED

ACCESSORIES

Magic Cloth

Whether it's a pricey collector piece or simply an old favorite smoker, proper care of a briar is essential to keeping it at its best, so that one might better enjoy ownership of it. To that end Savinelli offers their Magic Cloth, consisting of two pieces of Italian cotton stitched back-to-back — the beige half impregnated with Carnauba wax and a protective silicone. By simply polishing the pipe with the beige side, then wiping it down with the opposite, blue half, the Savinelli Magic Cloth is designed to help maintain a briar's luster and finish for a long time to come.

Laguna Pipe Tool

The Laguna pipe tool is a fuselage design, with the tamper concealed within its polished briar main body. Additionally, pulling on the tamper foot reveals a small chamber-scraper, plug-fitted into the cap which serves as the tamper's handle. The shaft of the tamper and the blade of the scraper are made of hardwood, rather than metal, better ensuring that a pipe isn't scratched around the rim or inside of the chamber. The particularly slender proportions of both tamper and scraper make this tool ideal for smaller or oval-chambered pipes.

Savinelli Pipe Stand - Gold

A pipe rest that can fit in a shirt pocket, this type of folding stand is especially popular for those who travel. This Savinelli model features alloy construction and a brass/gold-tone finish.

3 in 1 Pipe Tool

A variation on the classic Czech pipe tool design, this Savinelli offering features a tapered, almond-shaped scraper and flat pick; the former is more useful for scraping clean a tapered chamber, and the latter for clearing out the opening of the draft-hole on the same.

Como Wooden Stand

The idea behind these Savinelli pipe-rests is quite simple: take a piece of quality hardwood — mahogany, in this case — and present it in a form conducive to displaying some favorite smokers from a customer's collection. To this end they succeed, offering a handsome but unobtrusive design which looks smart, yet also keeps attention where it belongs: on the pipes they hold.

COLORS: 2 PIPE STAND OR 3 PIPE WOODEN STAND (not shown)

Balsa Filter

Savinelli's balsa filters provide a drier smoke by the simplest of means: absorbing moisture and condensation, along with impurities, from the smoke-stream. While many more complicated systems have come and gone, Savinelli's remains, and remains popular, being both effective and very inexpensive.

Mikazuki

Much like their other lines, Kiribi's Mikazuki series merges Art Deco styling with traditional Japanese themes. Mikazuki means "waxing crescent moon" — a motif evident in the subtle arches of the chrome base and ignition platform. Under all of this retro style, you will find manifold modern innovations: a single tank construction of enormous fuel capacity, as well as a cutting-edge, dual flame design which boasts the binary benefits of covering a wider surface, while being gentler to your customers' pipe.

Kabuto

Modern engineering in an Art-Deco retro-chic style, the Kabuto is one of Kiribi's most popular and unique offerings. Its defining feature is perhaps its iconic cap toggle, shaped to resemble the wings of a samurai's "kabuto" battle helm. Kiribi Kabutos boast innovations such as a capacious, single-tank fuel reservoir, a binary flame design, which covers a wider surface while being gentler to your customers' pipe, and a hinge spring made of a special polymer that is far more resistant to fatigue than steel.

Kiribi Flints

If you sell Kiribi lighters, eventually you're going to need some flints. Why not pick the same ones your lighters came with straight from the factory? Kiribi lighter flints are soft and are priced to be the least expensive option on the market. Fitting to the Kiribi style of unique presentation, even their flints are offered in a manner different from the usual plastic pack or finicky rotating dispenser: a tiny glass bottle with a cork stopper.
